# Magnify Pro

## Properties

- Lifespan L70 %: > 50.000 hr
- Immediate start regardless of temperature or humidity
- No mercury, lead or toxic gases
- No UV or IR radiation
- Premium desk lighting tool for professional, home or hobby use - great reading or visual aid
- A teenager can focus on objects as close as 8cm but by age 50 that distance can increase to 45cm - VERY frustrating when it limits your work or hobby. This premium-grade lamp is a simple and effective solution for seeing almost anything bigger, better and brighter
- High quality driver to ensure flicker free lighting
- Conveniently placed power switch on lamp head, flip-up dust cover protects the lens and keeps it clean
- Warranty: 3 year

## Application

All workplaces where precision work is done.

IP 65

Quality driver

10X magnification
